In addition, the Operator may request the United States to enter into the litigation to protect the interests of the United States.

B. Non-Title VI Federally Required Provisions:

1. **Federal Fair Labor Standards Act (Federal Minimum Wage) – 29 USC § 201, et seq.:** All contracts and subcontracts that result from this Agreement incorporate by reference the provisions of 29 CFR Part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part time workers. Operator has full responsibility to monitor compliance to the above-referenced statute and regulation. Operator must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic, including watchmen and guards, in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek. Operator or subcontractor shall insert in any subcontracts this clause and also a clause requiring the subcontractor to include these clauses in any lower tier subcontracts.

2. **Solicitations for Subcontracts, Including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding or negotiation, made by Operator for work required under this Agreement, to be performed under a subcontract, which also includes procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by Operator of the Operator's obligations under this Agreement and the Nondiscrimination Acts and Authorities on the grounds of race, creed, color, national origin, sex, age, or disability. Operator will incorporate this Agreement (the Prime Contract) into its subcontract agreements, such that its subcontractors are obligated to Operator to the same extent Operator is obligated to JAA under the Prime Contract. However, nothing contained in the Prime Contract creates any contractual relationship between Subcontractor and JAA. Operator's subcontract agreements shall require its subcontractors to generally agree to comply with all applicable federal, state and local laws, including the Civil Rights Act of 1964 as amended, as well as those non-discrimination statutes and authorities listed in Paragraph 3, above. For purposes of compliance with this section, Operator shall furnish documented proof that each of its subcontract or sub-consultant agreements contain provisions that require compliance with the above.
3. **Occupational Safety and Health Act of 1970 – 20 CFR Part 1910:** All contracts and subcontracts that result from this Agreement incorporate by reference the requirements of 29 CFR Part 1910 with the same force and effect as if given in full text. Operator must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. Operator retains full responsibility to monitor its compliance and its sub-Contractors' compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20 CFR Part 1910). Operator must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.
4. **Information and Reports:** The Operator will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by JAA or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish the information, the Operator will so certify to JAA or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.
5. **Sanctions for Noncompliance:** In the event of a contractor's noncompliance with the Non-discrimination provisions of this contract, JAA will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to: (i) Withholding payments to the Operator under the contract until the Operator complies; and/or (ii) Cancelling, terminating, or suspending a contract, in whole or in part.
6. **Veteran's Preference:** In the employment of labor (excluding executive, administrative, and supervisory positions), the contractor and all sub-tier contractors must give preference to covered veterans as defined within Title 49 United States Code Section 47112. Covered veterans include Vietnam-era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns (as defined by 15 U.S.C. 632) owned and controlled by disabled veterans. This preference only applies when there are covered veterans readily available and qualified to perform the work to which the employment relates.
7. **Clean Air and Water Pollution Control:** To the extend applicable, Operator agrees to comply with all applicable standards, orders, and regulations issued pursuant to the Clean Air Act (42 USC §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 USC §§ 1251-1387). The Operator agrees to report any violation to the Owner immediately upon discovery. The Owner assumes responsibility for notifying the Environmental Protection Agency (EPA) and the Federal Aviation Administration. Operator must include this requirement in all subcontracts that exceed \$150,000.00.

8. **Copeland “Anti-Kickback” Act:** Operator must comply with the requirements of the Copeland “Anti-Kickback” Act (18 USC 874 and 40 USC 3145), as supplemented by Department of Labor regulation 29 CFR part 3. Operator and subcontractors are prohibited from inducing, by any means, any person employed on the project to give up any part of the compensation to which the employee is entitled. The Operator and each Subcontractor must submit to JAA, a weekly statement on the wages paid to each employee performing on covered work during the prior week.
9. **DAVIS-BACON Requirements:** To the extent applicable, Operator and its subcontractors will comply with all David-Bacon Act requirements, including without limitation the minimum wage requirement that all laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the Secretary of Labor under the Copeland Act (29 CFR Part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalent thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Operator and such laborers and mechanics.
10. **Certification of Offeror/Bidder Regarding Debarment:** By submitting a bid/proposal under this solicitation, Operator certifies that neither it nor its principals nor its subcontractors are presently debarred or suspended by any Federal department or agency from participation in this transaction.
11. **Texting When Driving and Video Surveillance and Telecommunication:** In accordance with Executive Order 13513 and DOT Order 3902.10, JAA encourages the Operator to promote policies and initiatives for its employees and other work personnel that decrease crashes by distracted drivers, including policies that ban text messaging while driving motor vehicles while performing work activities associated with the project. The Operator must include the substance of this clause in all subcontractor contracts exceeding \$10,000 that involve driving a motor vehicle in performance of work activities associated with the project. Operator and Subcontractor agree to comply with mandatory standards and policies relating to use and procurement of certain telecommunications and video surveillance services or equipment in compliance with the National Defense Authorization Act.
12. **Safe Work Environment:** All contracts and subcontracts that result from this solicitation incorporate by reference the requirements of 29 CFR Part 1910 with the same force and effect as if given in full text. The employer must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. The employer retains full responsibility to monitor its compliance and their subcontractor's compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (29 CFR Part 1910). The employer must address any claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.
13. **Tax Delinquency And Felony Convictions:** By submitting a bid / proposal under this solicitation, Operator certifies that neither it nor its subcontractors has: (i) had any unpaid Federal tax liability assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and (ii) not been convicted of a criminal violation under any Federal law within the preceding 24 months.

Operator agrees that, if awarded a contract resulting from this solicitation, it will: (i) incorporate this provision for

certification without modification in all lower tier subcontracts; and (ii) provide immediate written notice to JAA if Operator learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings. This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that Operator or its subcontractors knowingly rendered an erroneous certification, the Federal Aviation Administration (FAA) may direct through JAA cancellation of the contract or subcontract for default at no cost to JAA or FAA.

- 15.
